Time for matrix multiplication with parallel optimization and without this optimization.

Without the optimization the time grow by 5 seconds. Compared to the last lab (lab 7), the time with optimization is better in lab 7 than in 8, almost 1 second more in the lab 8.

With optimization	Without optimization
1,976407	7,026951
1,940661	7,011328
1,973847	6,923578
